

Response to “Accountability Agreement” Proposal

John,

I looked at the websites for the Moore County NC Government and the Moore County NC Schools, but couldn't find a reference to the accountability agreement. Do you have a link to it?

Joe

Joe,

I read about the Moore County "accountability agreement" in *The Superintendent as CEO: Standards-Based Performance* by John R. Hoyle, Lars G. Björk, Virginia Collier, & Thomas Glass. The book takes a standards-based approach to performance. The part about Moore County focuses on school board and county commission agreeing on specific "student performance" goals and connects these goals to increased funding. The idea is that school board and county commission can agree on certain objectives, which if met, allows further funding to be considered or doled out. I haven't picked up the "white paper," but there is one called "Strategic Moment for Moore County." It may provide more information. I bet the county school administration has it.

John
